

Erasmus+ Mobility Report (SERE)

Semester 8 - Study Mobility

Ilyas BOUNOUA

École Centrale de Nantes - UCLouvain (EPL)

Period: 01/02/2025 – 30/06/2025

Campus of the Catholic University of Louvain (Louvain-la-Neuve)

École Centrale de Nantes

Direction des Relations Internationales

Fiche établissement d'accueil

Année universitaire :

Elève ingénieur Nom: Bounoua Prénom : Ilyas

Période du séjour à l'étranger de : 01-02-2025 à : 30-06-2025

Type de séjour à l'étranger ⁽¹⁾:

☐	Stage de Connaissance du Monde de l'Entreprise		
☐	Stage ingénieur		
☐	Travail de fin d'études	Option :	
☒	S8	☐ SE	☐ Césure
☐	DD

IV	Conclusion	6

I General presentation of the host country and city

I.1 Geographical and linguistic context

Belgium is a multilingual and multicultural country. Louvain-la-Neuve is located in Wallonia (the French-speaking region) and the dominant language in daily life and at university is French. The Louvain-la-Neuve campus is a planned university town, largely pedestrian, offering a safe living environment and student-oriented facilities.

I.2 Culture and daily life

Louvain-la-Neuve is a student town: bars, restaurants, university libraries and cultural activities are very present. The proximity to Brussels makes it easy to access a wide range of transport options and events.

I.3 Transport

Regional transport: trains (SNCB) and the regional bus network (TEC) serve Louvain-la-Neuve. The airports most commonly used for Erasmus exchanges are Brussels-National, Charleroi (via train+bus), and Brussels South Charleroi (shuttles), reachable in 30–90 minutes depending on the route.

University square in Louvain-la-Neuve

II Administrative procedures and settling in

II.1 Before departure

Before departure I completed the official Erasmus Learning Agreement with the chosen courses and obtained the necessary signatures. The "Learning Agreement" (pre-mobility version and subsequent modifications) is included in the administrative documents.

II.2 Arrival and enrollment at the university

Enrollment at UCLouvain (EPL) was done via the "Exchange application" homepage and through the EPL International Relations Office. It is important to respect the opening dates for registration (generally: winter semester Sept. 14 – Jan. 31; for our case the spring semester Feb. 1 – June 30) and to prepare supporting documents (passport, insurance, signed Learning Agreement, etc.).

II.3 Accommodation

Options: university residences, private housing, or shared flats. UCLouvain's housing office provides resources and lists for incoming students. I recommend signing up on waiting lists as early as possible.

III Semester S8 - Louvain School of Engineering (EPL)

III.1 Presentation of the host unit

The Louvain School of Engineering (EPL) is part of UCLouvain and hosts many engineering programs. The Louvain-la-Neuve campus offers a large, calm, and mostly pedestrian campus environment. Courses are offered in English ("English-friendly" or fully in English).

III.2 Semester structure and assessments

The official calendar specifies the semester dates (mobility period indicated on the EPL page). Assessment methods vary by course: programming projects, homework assignments, final exams, oral presentations, and group projects.

III.3 Modules followed and educational contributions

Below is a list of the courses taken during the semester and a short comment on their content and contribution to my education.

Code / Title	Comment / Contribution
LINFO2262 – Machine Learning: Classification and Evaluation	Course focused on classification methods, evaluation and practical programming projects (skills useful for implementing and evaluating ML algorithms).
LINFO2275 – Data mining & decision making	Deepening of data mining techniques and their application to decision-making; useful for data-driven projects.
LINFO2365 – Constraint Programming	Methods for solving constraint satisfaction problems (CSP), languages and solvers; complements optimization and modelling methods.
LINMA2710 – Scientific computing	Numerical tools, scientific programming (C++, Python, Julia), and computational techniques for simulation and optimization.
LINFO2364 – Mining Patterns In Data	Advanced techniques for pattern discovery and pattern mining; useful for analysing large datasets.
LINFO2335 – Programming paradigms	Historical and theoretical overview of programming paradigms (functional, object-oriented, declarative...) – useful for better choosing development tools.

Note: Course descriptions (objectives, content, instructor, language) are available in UCLouvain's course catalogue (pages for LINFO2262, LINFO2275, LINFO2365, LINMA2710, LINFO2364, LINFO2335).

III.4 Teaching particularities and contributions to the professional project

UCLouvain's pedagogical approach combines theory and a lot of practice: projects, group work, and the use of tools (Inginious, Moodle, real software projects). Courses taught in English favour integration into international contexts and collaboration. The experience strengthens my skills in machine learning, scientific computing and data mining, directly aligned with my engineering curriculum and my professional prospects in data science / research.

IV Conclusion

The Erasmus+ mobility at UCLouvain (EPL) allowed me to deepen technical skills (ML, data mining, scientific computing, advanced programming) while experiencing an international environment and different teaching methods. I recommend fully using local resources (library, study groups, workshops) and documenting projects for academic recognition after returning.

Annexes

- Learning Agreement (pre-mobility signatures and modifications) – administrative documents.
- Credit transfer and Transcript of Records (Transcript of Records).

Academic Year 2024/2025

Commitment					
By signing this document, the student, the Sending Institution and the Receiving Institution confirm that they approve the Learning Agreement and that they will comply with all the arrangements agreed by all parties. Sending and Receiving Institutions undertake to apply all the principles of the Erasmus Charter for Higher Education relating to mobility for studies (or the principles agreed in the Inter-Institutional Agreement for institutions located in Partner Countries). The Beneficiary Institution and the student should also commit to what is set out in the Erasmus+ grant agreement. The Receiving Institution confirms that the educational components listed in Table A are in line with its course catalogue and should be available to the student. The Sending Institution commits to recognise all the credits or equivalent units gained at the Receiving Institution for the successfully completed educational components and to count them towards the student's degree as described in Table B. Any exceptions to this rule are documented in an annex of this Learning Agreement and agreed by all parties. The student and the Receiving Institution will communicate to the Sending Institution any problems or changes regarding the study programme, responsible persons and/or study period.

¹ **Nationality:** country to which the person belongs administratively and that issues the ID card and/or passport.

² **Study cycle:** Short cycle (EQF level 5) / Bachelor or equivalent first cycle (EQF level 6) / Master or equivalent second cycle (EQF level 7) / Doctorate or equivalent third cycle (EQF level 8).

³ **Field of education:** The [ISCED-F 2013 search tool](http://ec.europa.eu/education/tools/iscsed-f_en.htm) available at http://ec.europa.eu/education/tools/iscsed-f_en.htm should be used to find the ISCED 2013 detailed field of education and training that is closest to the subject of the degree to be awarded to the student by the Sending Institution.

⁴ **Erasmus code:** a unique identifier that every higher education institution that has been awarded with the Erasmus Charter for Higher Education (ECHE) receives. It is only applicable to higher education institutions located in Programme Countries.

⁵ **Contact person:** person who provides a link for administrative information and who, depending on the structure of the higher education institution, may be the departmental coordinator or works at the international relations office or equivalent body within the institution.

⁶ An "educational component" is a self-contained and formal structured learning experience that features learning outcomes, credits and forms of assessment. Examples of educational components are: a course, module, seminar, laboratory work, practical work, preparation/research for a thesis, mobility window or free electives.

⁷ **Course catalogue:** detailed, user-friendly and up-to-date information on the institution's learning environment that should be available to students before the mobility period and throughout their studies to enable them to make the right choices and use their time most efficiently. The information concerns, for example, the qualifications offered, the learning, teaching and assessment procedures, the level of programmes, the individual educational components and the learning resources. The Course Catalogue should include the names of people to contact, with information about how, when and where to contact them.

⁸ **ECTS credits (or equivalent):** in countries where the "ECTS" system is not in place, in particular for institutions located in Partner Countries not participating in the Bologna process, "ECTS" needs to be replaced in the relevant tables by the name of the equivalent system that is used, and a web link to an explanation to the system should be added.

⁹ **Level of language competence:** a description of the European Language Levels (CEFR) is available at: <https://europass.cedefop.europa.eu/en/resources/european-language-levels-cefr>

¹⁰ **Responsible person at the Sending Institution:** an academic who has the authority to approve the Learning Agreement, to exceptionally amend it when it is needed, as well as to guarantee full recognition of such programme on behalf of the responsible academic body. The name and email of the Responsible person must be filled in only in case it differs from that of the Contact person mentioned at the top of the document.

¹¹ **Responsible person at the Receiving Institution:** the name and email of the Responsible person must be filled in only in case it differs from that of the Contact person mentioned at the top of the document.

¹² **Reasons for exceptional changes to study programme abroad (choose an item number from the table below):**

Reasons for deleting a component	Reason for adding a component
1. Previously selected educational component is not available at the Receiving	5. Substituting a deleted
2. Component is in a different language than previously specified in the course	6. Extending the mobility period
3. Timetable conflict	7. Other (please specify)
4. Other (please specify)

(1) (2) (3) (4) (5) conferatur infra

Date

09 July 2025

(1) Course unit code:

Refer to the Course research via
<http://www.uclouvain.be>

(2) Duration of course unit:

Y = full academic year S = semester

(3) Description of the institutional grading system:

The final assessment of a course will result in a mark on a scale from 0 to 20, the minimum pass mark being 10/20.
 Marks followed by V or W are not included in the average mark.
 NE = Not evaluated
 T = Cheating
 Abs. = Absence

(4) ECTS grading table:

UCLouvain uses an ECTS grading table based on the total number of successful grades obtained in all courses of the same study cycle in the same faculty over the last five academic years. It is reviewed each year.

Grade	20	19	18	17	16	15	14	13	12	11	10	< 10
% of students awarded the grade	2.6	2.9	6.7	10.1	15.3	14.8	13.9	11.3	9.0	6.9	6.5	-
ECTS grade	A				B		C		D		E	F

(5) ECTS credits:

1 full academic year = 60 credits
 1 semester = 30 credits
